Dear Sir / Madam,

Compliance under Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 - Newspaper Publication

Pursuant to Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirement) Regulations, 2015, we enclose herewith a copy of the newspaper advertisement published in The Economic Times, Chennai Edition (English) dated March 2, 2026 (Monday) informing shareholders about availability of the special window for re-lodgement of transfer requests for physical shares.

The above information will also be made available on the website of the Company at www.sundram.com.

Thanking you,

Yours truly,
For SUNDRAM FASTENERS LIMITED

G Anand Babu
Senior Manager-Finance & Company Secretary

Country Scrambles to Reset

Consumer Goods War of Crude Shocks & More

Ratna Bhushan, Writankar Mukherjee & Sharmistha Mukherjee

New Delhi: Consumer chiefs across sectors have cautioned about the impact of escalating crude oil prices, supply disruptions, impact on consumer behaviour and demand, and disruptions in remittances from the Gulf region, at a time when demand had started to pick up, amid the raging Gulf war following joint US and Israeli strikes on Iran and Tehran's retaliation with missile attacks.

"The escalation in Brent crude prices would have a cascading effect overall," said Arup Chakrabarti, president of Parle Products, India's largest biscuits maker. "Let's hope for things to settle down within the next 72 hours or so," he said.

Crude oil is a core ingredient for consumer staples, including detergents, biscuits, toothpaste and paints, besides packaging. Petroleum derivatives used in packaging material, for soaps, detergents, hair oils, creams, shampoos and toothpastes, in bottles and tubes account for over 25% of FMCG firms' input costs and 40% for paint companies.

Berger Paints chief executive officer Abhijit Roy said the paint industry has about a month's worth of half-finished goods and raw material, adding that if the Gulf conflict is a short one, the impact would be less. The paint industry uses derivatives of crude for solvents and pigments, and the situation of solvent-based paints, decorative paints and industrial paints, may go up. Also, demand will be impacted in states like Kerala, Uttar Pradesh, West Bengal and Karnataka which have high Gulf remittances," said Roy.

Global markets are bracing for inflationary pressures and disruptions, as Iran has what is the world's most important oil producing region, Tehran has announced the closure of Strait of Hormuz, which accounts for close to a fifth of the global crude oil flow. The world's largest oil chokepoint

Cos Could See Rise in Digital Threats: Experts

Himanshi Lochhab

Mumbai: Hacktivist and state-backed cyber groups targeting major Middle East firms underscore risks for India, where similar attacks could disrupt Operation Sindoor hit public sector undertakings and other critical infrastructure, cybersecurity experts said.

On Saturday, Israel launched what has been described as the largest cybernetic in history against Iran, contributing to a near-total Internet blackout, disruption of government services, media, as well as energy and aviation infrastructure.

Meanwhile, the deSaba Calendar, a popular Iranian app which tracks prayer timings, was compromised in a large-scale cyber operation. The app, which has over 3 million users, was used to send push notifications in Persian including phrases like 'Help has arrived' and 'lay down your weapons' during US and Israeli joint strikes in Tehran.

Cybersecurity experts and consultants have issued advisories to Indian corporates warning that hacktivists, driven by efforts to mobilise Shia communities across India, Pakistan could intensify regional tensions and fuel large-scale misinformation campaigns.

Notable hackers also known as 'script kiddies' could attempt to attack critical infrastructure including power grids, telecommunication networks, banking ATMs, as observed during Operation Sindoor.

Electronics Exports of \$4.5 billion at Risk

Subhayan Chakraborty

New Delhi: The spreading conflict between Iran, the United States and Israel, places a shadow of uncertainty over India's more than \$4.5 billion electronics and tech exports to both the Gulf nations, and wider West Asia region, despite negligible trade with Iran itself, people in the know pointed out.

The UAE was the second largest buyer of Indian electronic products, according to data from the commerce and industry ministry. In the first nine months of 2025 (till September), the UAE was the destination for \$4.1 billion of electronics exports. From burgeoning smartphone exports to the United Arab Emirates to a strengthening supply

AI-hit Tech Cos Fear Slowdown in Spends

Tanya Pandey & Shristi Anchar

New Delhi | Bengaluru: India's IT services sector is facing a disruption as the Middle East conflict threatens to slow tech spending and freeze expansion plans in the Gulf region, aggravating the stress on the sector which is already reeling under the impact of artificial intelligence.

The Strait of Hormuz, through which a third of the world's seaborne oil passes, was temporarily closed following the escalation, rattling global energy markets and forcing a price revision. With approximately 60% of India's oil imports sourced from the Middle East, higher crude prices could weaken US and European growth, forcing enterprises to cut discretionary tech

Amid Panic and Confusion, Travellers Develop Cold Feet

Anumeha Chaturvedi

New Delhi: Faridkot based Shobhit Sharma had left for his honeymoon trip to Dubai on February 22. Everything was going well till he received a text from Abu Dhabi on Saturday following US and Israeli attacks on Iran and the latter's retaliatory strikes. Sharma has been waking up to frequent alerts from Abu Dhabi government on potential missile threats, and sounds of vibrations and explosions. "We are not able to find commuting options to get to Dubai from Mumbai and prices of luxury hotels have gone up almost three times due to rising demand for airports were to resume operations in the next few days. Travellers who have trip booked in the coming weeks are pressing for cancellations. "I am getting requests for cancellations for trips booked till mid-March 2026. Even if the flights resume in a couple of days, people don't want to take chances," said Kapil Jain, co-founder and chief executive of Fly Divine Travels. Hotels aren't refunding if the booking was non-refundable. We are advising clients to wait for a couple of days as they are more likely to get better rates if airlines cancel on their own," he added. Jain said he has subsidised bookings till March 30, and a lot of budget travellers prefer going around this time.

EAST COAST RAILWAY

Tender Notice No. WAT/RS-07-22-25-26

REPAIR AND REHABILITATION OF CBR TRACKS AND ROLLING STOCK

NAME OF WORK WITH ITS LOCATION: REPAIR AND REHABILITATION OF CBR TRACKS AND ROLLING STOCK FOR ICH SCHEDULE THREE PHASE LOCOS & COMPREHENSIVE REPAIR / RENEWAL OF CBR BRAKE SYSTEM IN THREE PHASES LOCOMOTIVES AT ELECTRIC LOCO SHED VISAKHAPATNAM.

Estimate: Rs. 4,34,00,00.00
