Chennai, August 04, 2026: The Board of Directors of Sundram Fasteners Limited *today* announced the unaudited Financial Results for the quarter ended June 30, 2026.

Highlights: Quarter ended June 30, 2026: FY 2026-27

Standalone Financials

The Company reports its revenue from operations at Rs. 1,614.76 crores for the quarter ended June 30, 2026, compared to Rs. 1,350.17 crores during the same period in the previous year, registering a robust growth of 20%.

The domestic sales for the quarter ended June 30, 2026, were at Rs. 1,084.31 crores as against Rs. 930.91 crores during the previous year, registering a growth of 16%.

The export sales for the quarter ended June 30, 2026, were at Rs. 465.97 crores as against Rs. 379.14 crores during the previous year, registering a growth of 23%.

Ms. Arathi Krishna, Managing Director, Sundram Fasteners Limited, said, "*We have entered the new financial year on a strong footing, buoyed by improving business conditions across key markets and the enduring confidence of our customers. Despite a dynamic global environment, we are encouraged by the steady recovery in export demand and the continued resilience of domestic markets. Our continued investments in technology, manufacturing excellence and customer partnerships have enabled us to respond with agility to evolving market requirements. We are also making steady progress in expanding our presence*

across high-potential non-automotive sectors such as aerospace, wind energy, railways and defence, which will further strengthen the resilience and diversity of our business. As we move through the year, we remain focused on operational excellence, prudent capital allocation and creating long-term value for all our stakeholders."

The Profit before Tax (PBT) for the quarter ended June 30, 2026, at Rs. 203.23 crores compared to Rs. 185.68 crores for the corresponding quarter.

The net profit for the quarter ended June 30, 2026, was at Rs. 150.97 crores as against Rs. 138.35 crores.

Earnings per share for the quarter ended June 30, 2026, amounted to Rs. 7.18.

EV Market and Digital Innovation

In the global automotive market, there are continuously emerging trends in mobility. Although U.S. OEMs have started to concentrate more on hybrids, their counterparts in Europe are rapidly moving towards the use of electric vehicles. As a result of its strong position in both of these markets, the Company is well-placed to leverage these emerging opportunities through its wide range of products and established customer relationships.

Furthermore, the Company is moving forward with its digital transformation strategy by adopting Industry 4.0 technologies such as AI, ML, IoT, and robotics throughout the production process. As a result of the incorporation of these data-driven technologies, the Company has managed to increase productivity, improve quality systems, ensure the stability of processes, and increase resilience.

All these activities are building up an intelligent and connected ecosystem of production which not only improves current performance but also creates a platform for shifting to Industry 5.0. This will be characterized by automation alongside human knowledge.

Consolidated Financials

The Company's consolidated revenue from operations posted for the quarter ended June 30, 2026, was at Rs. 1,846.07 crores compared to Rs. 1,533.39 crores during the same period in the previous year, registering a growth of 20%.

The consolidated net profit for the quarter ended June 30, 2026, was at Rs. 168.69 crores as against Rs. 147.94 crores for the same period in the previous year, registering a growth of 14%.

The consolidated earnings per share (EPS) for the quarter ended June 30, 2026, amounted to Rs. 8.01.

Capital expenditure

To drive long-term growth, the Company has earmarked capital expenditure of Rs 400 crores towards capacity expansion initiatives. These investments are expected to significantly enhance the Company's capabilities to address increasing customer requirements across various segments, including Internal Combustion Engine Vehicles (ICEVs), Plug-in Hybrid Electric Vehicles (PHEVs), and Electric Vehicles (EVs).

Within the Fasteners Division, an investment of approximately Rs 250 crores is proposed to strengthen the Company's presence in the growing wind energy sector, as well as the space and aerospace industries. In addition, the Company plans to invest approximately Rs 100 crores in the Cast and Machined Assemblies business to augment its capabilities in the manufacture of high-value precision-engineered assemblies.

Collectively, these investments reflect the Company's strategic focus on expanding into adjacent product categories, enhancing its technological capabilities and developing diversified revenue streams across the automotive, industrial, renewable energy, and emerging mobility sectors.

About Sundram Fasteners

Sundram Fasteners Limited, a Company headquartered in Chennai, has established a track record of leadership over 60 years. With a diversified product line, world-class facilities in three countries and motivated team of talented people, Sundram Fasteners has become a supplier of choice to leading customers in the automotive and non-automotive segments worldwide.

The product range consists of high-tensile fasteners, powder metal components, cold extruded parts, hot forged components, radiator caps, automotive pumps, cast and machined assemblies, gears and couplings, tappets, iron powder, powertrain components, and sub-assemblies. Over the years, the Company has acquired cutting-edge technological competencies in forging, metal forming, close-tolerance machining, heat treatment, surface finishing, and assembly.
